DETAILED ACTION

Claims 1-28 are pending in this application.

Information Disclosure Statement

1. The information disclosure statement (IDS) submitted on 9/13/2004 is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

Drawings

2. The drawings were received on 4/20/2004. These drawings are acceptable.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-28 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

These claims define various substituents in terms of "comprising" and "including". In doing so, claims are rendered indefinite, as it is not clear as to what else is contemplated therein. For example, claim 1 defines Z as comprising a nucleophilic group, and at the end it claims "including salts thereof". Claim 3 appears to be incomplete as it is not clear as to what comprises tertiary amine. Claims 4 onwards are defining again various terms as comprising. Claims 12 and 13 use the terms "including salts thereof". What else is contemplated. Claim 7 defines Y and depends from claim 1, however, there is no Y in claim 1.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1-4, 6-9, 14-19, 20-22 are rejected under 35 U.S.C. 102(b) as being anticipated by Registry Number 107924-26-5.

RN 107924-26-5, anticipate instant claims and composition, when in the instant claim, R4 to R7 are H, R3 is H, R1 and R2 are H and butyl respectively, L is methylene, and Z is NHBu-i. Also see the title.

US 2005/0014822 is further cited to show the state of the art. See the chemical structure in the abstract.
